

## RB751G-2HnD

The RB751G is the wireless SOHO Gigabit AP you have been waiting for.

It has five Ethernet ports, one USB 2.0 port and a high power 802.11b/g/n wireless AP with antennas built in.

It's also possible to connect an external MMCX antenna to replace one of the built in antennas.

The device is very small and will look good in any home or office, wall mounting anchor holes are provided.
